3. Document Identifier: 110-SYC-SY00-00300-000	4. Rev.: 00A	5. Title: Dry Transfer Facility Seismic Analysis	6. ECN: 01
7. Reason for Change: LP-3.12Q-BSC Design Calculation and Analysis 5.1[2]c: "The decision of the DEM, PCSA, or PCA Manager to issue calculations or analyses with a "committed" status will be based on an experienced assessment of the likelihood that the results of the calculation or analysis will change, and the degree of impact those changes will have on designs that support the regulatory submittals or procurement activities, based on the design's bounding conservatism. The status designation of Dry Transfer Facility Seismic Analysis (110-SYC-SY00-00300-000-00A) can be changed to "Committed" as the results are not expected to change in such a manner that will affect support of regulatory submittals.
